A mug item blocking the amount of chip

JC-5

Player character animation glitch at a Poker table

JC-4

JC-5

A mug item blocking the amount of chip

Attach

Create subtask

Link issue

Description

Description : The mug item obstructs the view of the chip stack, making it difficult to see the amount of chips. Additionally, there appears to be an extra chip (red and white outlined) between the stack of chips and the poker button.

Steps to reproduce

1. Launch Pokerstars VR.

2. Move your character using the controller.

3. Tap your watch.

4. Join a poker table in the lobby (either by using Quick Seat or by finding the table on the list).

5. Take a seat at the table.

6. Press both thumbsticks simultaneously to reset your head position.

7. Place the bet

Repro : 5/5

Actual Results:

The mug item obstructs the view of the chip stack.

The amount of chips is difficult to see.

An extra chip (red and white outlined) is present between the stack of chips and the poker button.

Expected Results:

The mug item should not obstruct the view of the chip stack.

The amount of chips should be clearly visible.

There should not be any extra chip between the stack of chips and the poker button.

Environment

Windows, Oculus Quest

Devices : Oculus Rift, Oculus Quest, HTC Vive
